After School Activities Booklet 2022-2023

Principal's Message

Dear Parents,

Welcome to The Hamilton International School, After School Activities (ASA) program. ASAs are an integral part of a child's education because it allows them to explore their individual talents so that they can ignite their passion, develop their purpose and realize their potential.

Confidence is such an important part of student well-being and ASAs help to build this. They not only establish great relationships with their peers, coaches, and mentors but learn resilience to overcome challenges and celebrate not only their success but the success of their peers. Every student who takes part in ASAs flourishes as an individual through leadership opportunities, skill building, and working in teams.

I look forward to celebrating all the success your child will experience during their time engaging in our ASAs.

Principal, Terry Senior

Head of After School Activities

Dear Parents,

I am so excited that The Hamilton International School is able to offer another year of amazing After School Activities (ASAs). Our afterschool activities program gives your child the opportunity to discover new passions and hobbies, create friendships and build confidence.

The benefits of afterschool activities for children are wide and varied, ranging from physical benefits to psychological and social advantages and this is all due to the promotion of increased activity. Scientific research proves that encouraging children to engage in activities after school could aid their development.

Because we want all of our students to experience ASAs we make sure that our providers offer a variety of essential programs that are of high quality. These include but are not limited to: swimming, football, musical instruments, karate, science, cooking etc. We are very fortunate to collaborate with reputable clubs and academies.

I would like to take this opportunity to thank our community of providers, students, parents, and staff for their contribution to another year of a successful ASAs.

Below is a list of our offerings for the AY 2022-2023.
